ERASMUS+ PARTNER

Municipal Secondary Technical School (MSTS) "Gorgi Naumov" – Bitola
[Средно Општинско Техничко Училиште (СОТУ) „Ѓорѓи Наумов - Битола“]

MSTS "Gorgi Naumov" – Bitola (Technical High School or Tech School Bitola) is a public TVET high school established by the Municipality of city of Bitola, North Macedonia.

Technical High School "Gorgi Naumov" has 84 employees, from which 62 are teachers. The remaining employees are part of the expert services: school pedagogue, school psychologist, librarian, administration and technical personnel. It is one of the best TVET school in N. Macedonia and leading school at south-west region of N. Macedonia. The educational process in our school includes students from the municipality of Bitola and also students from other areas: nearby smaller towns and surroundings.

Our Tech School is verified for many educational profiles from the electro technical and mechanical professions. Based on information from this school year (2022/2023), there are around 750 students attending the School that are divided in 38 classes. Currently there are about 510 students in the electro-technical vocation profiles and 240 students in the mechanical vocation profiles.

According to the International Standard Classification of Education (ISCED 2011) our school provides four different levels of education:

- First stage of secondary education,
- Second/final stage of secondary education preparing for tertiary education and/or providing skills relevant to employment,
- Post-secondary non-tertiary education i.e. Programmes providing learning experiences that build on secondary education and prepare for labour market entry and/or tertiary education, and
- Short-cycle tertiary education i.e. Short first tertiary programmes that are typically practically-based, occupationally-specific and prepare for labour market entry; These programmes may also provide a pathway to other tertiary programmes.

Included are four years educational profiles from the electro technical vocation: electro technician for computer techniques and automatics, electro technician for electronics and telecommunications, electro energetic technician, technician for industrial mechatronics, and electro mechanic with three year education.

Additionally, there are four years educational profiles from the mechanical vocation: mechanical technician, CNC technician, mechatronic technician, mechanical-energetic technician, mechanical technician for motor vehicles and machine mechanic with three year education.

Our School also provides education for adults who have a need for gaining additional professional qualifications from the electro technical and mechanical vocation.

Technical School "Gorgi Naumov" - Bitola was primarily established based on the resolution from 7.10.1957 as an industrial school with practical lessons, and began existing as a Technical High school from the year 1960. The school moved to the new building and facilities in 1986 which it still uses. The school is located on "Mihajlo Andonovski" street No. 1 and stretches on a surface of more than 7.000 m². This area includes classrooms, school cabinets, laboratories, workshops and a gym. The school has a parking area, a green area, an open sports ground for basketball, handball and foosball.

It is important to emphasize that great part of our students who have graduated enroll in universities of Skopje and Bitola. Lot of them are between the best students in faculty of electrical engineering, faculty of computer sciences and mechanical engineering faculty.

Besides that, additionally, lot of students that had completed theirs education in our Tech School are employed in IT companies, as well as in important companies in the mining, mechanic and electro energetic sectors in our municipality and broader.

We will be very glad if Your school choose us as a partner in the frame of Erasmus+ projects.

Looking forward to hearing from you soon,

Bitola, 12.03.2023
